ABSTRACT

Chandra Mustika Rani, 2016. Preparing English Lessons for Grade 4 Students at SDN 02 Gentungan, English Diploma Program, Faculty of Cultural Sciences, Sebelas Maret University.

This final project report is written based on the job training at SDN 02 Gentungan. The objectives of this report are to describe the important aspects and steps of designing English learning material, and to describe the problems and the solutions encountered by the teacher in teaching English to grade 4 students of SDN 02 Gentungan. I did a class observation before doing the job training. I observed the school, class condition and the way of English teaching and learning. I also made a lesson plan before teaching.

I made the material based on the draft made English teacher of SDN 02 Gentungan. There were three steps in designing learning material for the grade 4 students of SDN 02 Gentungan, such as: determining the objective of topic, time management and classroom activity. I combine the material with games in every lesson to know how far the students could catch the material.

There were two problems when I gave the material to the students. The problems were students did not understand what they should do and students who looked sleepy and bored. Then I should become problem solver for that situation. The way I solve those problems were by giving more explanation to the students who were still confused with the instruction and having outdoor class.
