ABSTRACT

This thesis is aimed to find out the correlation between (1) students’ self-efficacy and speaking skill; (2) students’ word meaning mastery and speaking skill; (3) students’ self-efficacy and word meaning mastery toward speaking skill.

The method that is used in this study is correlational study. The study was conducted in December 2015 at SMK Negeri 1 Sumber. The population of this study is all the second grade students of SMK Negeri 1 Sumber in the Academic Year of 2014/2015 which consists of two classes. The total of the population is 62 students. By using simple random sampling technique, the writer takes class XI.TKJ A as the sample which consists of 32 students. The instruments to collect the data are in the form of questionnaire and test. The questionnaire is used to collect the data of students’ Self-efficacy while the test is used to collect the data of word meaning mastery and speaking skill. The techniques which are used in analyzing the data are Simple Correlation and Multiple Regression Correlation.

The result of the study shows that in the level of significance $\alpha = 0.05$ it is found that (1) there is a positive correlation between Self-efficacy and speaking skill ($r_{1y} = 0.671$, $t_0 = 4.959 > t_t = 1.694$); (2) there is positive correlation between word meaning mastery and speaking skill ($r_{2y} = 0.642$, $t_0 = 5.979 > t_t = 1.694$), and (3) there is a positive correlation between Self-efficacy and word meaning mastery simultaneously and speaking skill ($R_{y12} = 0.728$ and $F_0 = 16.352 > F_t = 3.328$). From the results of the study it is also known that self-efficacy and word meaning mastery are important factors that give contribution to speaking skill. The students’ self-efficacy gives 45 % contribution to the students’ speaking skill, and the students’ word meaning mastery has 41.2 % contribution to the students’ speaking skill. While simultaneously the students’ self-efficacy and word meaning mastery give 52.98 % contribution to the students’ speaking skill. It means the increasing of students’ self-efficacy and word meaning mastery, either separately or simultaneously will be followed by the increasing of the students’ speaking skill.

From the result of the study, it is known that self-efficacy and word meaning mastery are important factors that can improve students’ speaking skill. Those two factors cannot be ignored and should be improve in increasing students’ speaking skill.
ACKNOWLEDGEMENT

Alhamdulillahi robbil’alamin, the writer thanks to Alloh for his blessing so he can complete this thesis as a partial fulfillment of the requirements for achieving the undergraduate degree in English Education. The writer realizes that this thesis cannot be finished without helps from a lot of people. Therefore, she would like to express her deepest gratitude and appreciation to:

1. The Dean of Teacher Training and Education Faculty of Sebelas Maret University for permitting the writer to write this thesis.
2. The head of English Department of Teacher Training and Education Faculty of Sebelas Maret University for her permission to carry out this thesis.
3. Drs. MUH. Asrori M.Pd, and Dewi Sri Wahyuni, S.Pd, M.Pd, as the first and the second consultant who have given their guidance, self-efficacy, and suggestion for the writer.
4. The Headmaster of SMK Negeri 1 Sumber who has given permission to conduct the research.
5. Sutarno S.Pd, the English teacher of SMK Negeri 1 Sumber who have given permission and a lot of helps and guidance for the writer to carry out the research in their class.
6. The second grade students of SMK Negeri 1 Sumber in the academic year of 2014/2015 who have helped the writer to conduct the research by joining the try out test and the test.
7. His parents and his family who have given their never ending prayer, love and support.

The writer realizes that this thesis is far from perfection but he hopes that this thesis will be useful for the readers and for those who learn English.

Surakarta, June 2016

## CHAPTER I INTRODUCTION

A. The Background of The Study .................................. 1
B. The Identification of The Problem ............................. 5
C. The Limitation of The Problem ................................ 6
D. The Statement of The Problem ................................. 6
E. The Benefit of The Study ..................................... 7

## CHAPTER II THEORETICAL REVIEW

A. Review of The Related Theory .................................. 8
   1. Self-efficacy ............................................... 8
      a. Definition of Self-efficacy ............................ 8
      b. Factor that Affect Students’ Self-efficacy .......... 9
      c. The Effect of Self-efficacy ............................ 10
      d. The Characteristics of Motivated Students .......... 11
   2. Word Meaning ............................................. 12
a. Definition of Word meaning ........................................ 12
b. The Importance of Word meaning ................................. 17
3. Speaking skill ................................................................ 17
   a. Speaking skill ............................................................. 18
      The Nature of Speaking .............................................. 18
   b. Skill in Speaking .......................................................... 20
B. Rationale............................................................................. 22
C. Hypotheses.......................................................................... 25

CHAPTER III RESEARCH METHODOLOGY
A. The Aim of Study .............................................................. 26
B. Place and Time of the study ............................................. 26
C. The Method of the Study ................................................. 26
D. The Population, Sample, and Sampling ......................... 28
   1. Population .................................................................... 28
   2. Sample ........................................................................ 28
   3. Sampling ....................................................................... 29
E. The Technique of Collecting Data ................................. 29
   1. The Instrument of Collecting the Data ...................... 29
      a. Test ....................................................................... 29
      b. Questionnaire ........................................................... 30
   2. Validity of the Instrument ........................................... 31
   3. Reliability of the Instrument ........................................ 34
F. The technique of Analyzing Data .................................... 35

CHAPTER IV THE RESULT OF THE STUDY
A. Description of the Data ................................................. 42
   1. The Data of Self-efficacy ............................................ 42
   2. The Data of Word Meaning Mastery .......................... 43
   3. The Data of Speaking skill .......................................... 44
B. The Hypothesis Testing .................................................... 45
   1. Prerequisite Test .......................................................... 46
      a. Normality Test .......................................................... 46
b. Linearity of Regression Test................................. 46
  c. Significance of Regression Test........................... 47
2. Hypotheses Testing.............................................. 47
  a. First Hypothesis............................................. 48
  b. Second Hypothesis.......................................... 49
  c. Third Hypothesis............................................. 50
C. The Discussion of Research Finding.......................... 51

CHAPTER V CONCLUSION, IMPLICATION AND SUGGESTION
A. Conclusion.......................................................... 55
B. Implication........................................................... 56
C. Suggestion............................................................ 56

BIBLIOGRAPHY.......................................................... 58
APPENDICES .................................................................. 61
LIST OF TABLE

1. Table 4.1.1 The Frequency Distribution of the Scores of English Learning Self-efficacy.................................................................42
